Experience

BigPerl Solutions Pvt Ltd
Junior .NET Developer
October 2022 - Till date

About Me

I am a dedicated .NET Developer with 1 year of experience, actively seeking an opportunity to contribute my technical expertise to an organization. I am eager to demonstrate my skills and drive for professional and financial growth within a dynamic work environment. I am confident that my proficiency in ASP.NET, MVC, C#, and VB.NET, along with my strong problem-solving abilities, make me a valuable asset to any team. I look forward to contributing to the success of your organization.

Profile Overview

- 1 Years of experience in .NET development.
- Proficiency in ASP.NET, MVC, C#, and VB.NET.
- Strong Experience in HTML, CSS, and SQL.
- Capable of creating dynamic and visually appealing web applications.
- Familiarity with Agile software development methodologies.
- Proficient in using GIT for version control.
- Familiarity with Oracle database management.
- Experience with continuous integration using Jenkins.
- Emphasis on delivering high-quality software solutions.
- Dedication to meeting client requirements and expectations.
- Proven problem-solving abilities.
- Proficient in utilizing Entity Framework for seamless object-relational mapping, enabling efficient interaction between .NET applications and databases.
- Strong communication, teamwork, and organizational skills.
- Adaptable to new technologies and development methodologies.
- Effective time management skills to meet project deadlines.
- Proficient in using software design patterns and best practices.
- Knowledge of software development life cycle (SDLC) phases and their importance in project management.
- Ability to collaborate effectively with cross-functional teams including designers, QA testers, and product owners.
- Proficiency in using project management tools like Jira or Trello for task tracking and progress monitoring.
- Demonstrated ability to adapt to changing project requirements and pivot as needed.

Project Worked

E-Commerce | CafePress

October 2022 - Till Date

- CafePress is an online retailer and print-on-demand company that allows individuals and businesses to create and customize a wide range of products, including apparel, accessories, home decor, and promotional items.
- The company offers a platform where users can upload their own designs, images, and text to personalize products, or they can choose from a selection of pre-designed items created by other users or CafePress itself.

Roles & Duties

- Design, develop, and maintain web applications using ASP.NET and MVC.
- Write clean and maintainable code in C# or VB.NET.
- Proficient in managing relational databases like Oracle and SQL, including schema design and writing queries.
- Develop responsive web interfaces using HTML, CSS, and JavaScript.
- Collaborate effectively with cross-functional teams to meet project requirements.
- Experience with Agile development methodologies, including participation in sprint planning, daily stand-ups, and retrospectives.
- Utilize Git for version control and code management.
- Implement continuous integration using Jenkins for automated build and deployment processes.
- Prioritize thorough documentation of code changes and conduct comprehensive testing to ensure software quality.
- Knowledge and practice of security best practices, including prevention of XSS (Cross-Site Scripting) and SQL injection vulnerabilities.
- Experience with integration of web applications with RESTful APIs.
- Utilized Entity Framework to facilitate object-relational mapping, enabling efficient data retrieval and manipulation in .NET applications.
- Specific expertise in working within the E-Commerce domain, suggesting familiarity with the unique challenges and requirements of online retail and sales platforms.

Declaration

I certify that the information provided in this resume is accurate and complete to the best of my knowledge.
