

DEVADARSHAN KANNAN

ABOUT ME

Motivated third-year BTech CSE student specializing in AI and Robotics at VIT University. Eager to secure a software development internship, leveraging my strong aptitude for learning new technologies and solving real-world problems. Detail-oriented, deadline-driven, and skilled in Python, Java, and C++. Committed to effective communication, collaboration, and delivering impactful results to contribute to innovative technology development.

EXPERIENCE

Microsoft Innovation Club | App Developer (Mar 2023-Present)

Dynamic app developer in the Microsoft Innovation Club, mentoring and supporting new members in Flutter development. Collaboratively defined, designed, and launched innovative features for monthly club apps. Provided technical support during events, ensuring seamless software and hardware operation. Developed strong communication, leadership, and mobile app development skills.

CodeChef vit-Chennai chapter | technical team member (Mar 2023-Present)

Facilitated a two-day workshop on Data Structures and Algorithms (DSA) featuring esteemed speaker Mr. Abdul Bari. Assisted participants in resolving technical challenges and fostered engagement through a DSA quiz. Actively contribute as a technical member in CodeChef VIT Chennai Chapter, enhancing proficiency in problem-solving, algorithmic thinking, and fostering a collaborative coding community.

PROJECTS

Android apps

Skilled Flutter developer adept at crafting minimal yet impactful mobile applications. Successfully built a range of apps, including To-Do list app, Dice game, BMI Calculator, and E-Commerce app. Leveraged APIs, Firestore, and FirebaseAuth for data retrieval, database management, and user authentication. Demonstrated expertise in UI/UX design and delivering seamless functionality.

Transport booking system

Created an application that integrates the ticket booking systems of railways, airways and buses making it easy for the customers to navigate between and book tickets for different types of transport using python tkinter and file handling concepts.

EDUCATION

B.Tech CSE with Specialization in AI and Robotics (Jul 2021-Present)

Vellore Institute of Technology, Chennai
CGPA:8.67

Higher Secondary Education-Computer Science (Apr 2019 – Jun 2021)

Chettinad Vidyashram | FIITJEE Integrated Program
96.2% in 12th CBSE board examination, 90% in JEE
