Project Work

“DISASTER MANAGEMENT SYSTEM”

- The use of social media is expanding significantly and can serve a variety of purposes. Over the last few years, users of social media have played an increasing role in the dissemination of emergency and disaster information.
- It is becoming more common for affected populations and other stakeholders to turn to Twitter to gather information about a crisis when decisions need to be made, and action is taken.
- However, social media platforms, especially on Twitter, presents some drawbacks when it comes to gathering information during disasters.
