- **Typing**

Kavipriya. D

Software Engineer

I am a results-oriented SQL Developer with 2 years and 6 months of experience in designing, developing, and optimizing databases. I am actively seeking a dynamic role as a SQL Developer where I can apply my robust analytical abilities and proficiency in SQL programming, database administration, and performance enhancement to make a valuable contribution to an organization's achievements.

Experience

Aug 2021- May 2023

Align Associate -Ashok Nagar, Chennai

MySQL Database Developer & MSSQL Support

- I have over 2 years of practical experience in designing and maintaining databases using MS SQL and MySQL.
- I possess strong analytical and problem-solving abilities, enabling me to analyze complex business requirements and create effective database solutions.
- I also have experience in developing applications with MSSQL, MySQL, and PostgreSQL, and I am excellent in using tools like SSMS for problem-solving.
- I'm proficient in writing queries, functions, and stored procedures in SQL Server and MySQL Workbench.
- Additionally, I have experience in software development using MySQL Workbench 8.0 and am skilled in writing joins and sub-queries.

Project Experience

1. ESCON - LIFT PROJECT

- I possess a wealth of experience in crafting intricate SQL queries, adeptly utilizing Joins, Subqueries, set operators, and various functions.
- In addition, I have a proven track record of creating and managing database objects, including Tables, Views, and Database Links, tailored to meet specific business needs.
- I've also developed custom Packages to address unique requirements, written diverse SQL queries, and stored procedures and functions.
- When constructing complex SQL queries, I routinely employ Analytic functions, Aggregate functions, and Case Statements to ensure optimal data manipulation and retrieval.

2. KML- KRISHNA MARUTHILIMITED

- I oversee the monthly data flow within the SAP Server, ensuring the smooth transfer and management of information.
- Additionally, I've developed procedures specifically designed to fetch data for front-end applications.
- My responsibilities also encompass crafting both Data Definition Language (DDL) and Data Manipulation Language (DML) commands for the creation of new database objects.

3. JEWELLERY – DASHBOARDBOTS (Support)

- I provide assistance to the Oops team by effectively addressing and resolving application issues.
- My expertise extends to a strong grasp of relational database concepts, and I excel in SQL programming, with a focus on monthly data retrieval in MSSQL.

July 2023- Present

Cognitive Platform Solutions - Kodambakkam, Chennai

Software Engineer

- Designed and maintained database schemas, ensuring data integrity and efficient data retrieval.
- Developed complex SQL queries to extract and manipulate data for reporting and analysis.
- Conducted performance tuning of SQL queries to improve database efficiency.
- Provided production support and resolved database – related issues in a timely manner.

CERTIFICATION

- Completed Certification in DCTT (Diploma Computer Teacher Training) with First Class.
- Certificate in English Typing Senior with First Class.
- Certificate in Tamil Typing Junior with First Class.
