PROJECTS

MINI PROJECT TITLE : RGCET DEPARTMENT WEBSITE

In this application we can check the daily activities and events which is conducted in our college through a private website. Student can create own login for private use.

MAIN PROJECT TITLE : ANOMALY DETECTION OF HUMAN MOVEMENTS IN PEDESTRIAN WALKWAY

Our project is based on Artificial Intelligence in Machine Learning.

Project Outline: Our main motto of our project is to reduce the human power to monitor the human movements in the road. Only human those who are walking will be allowed to the road. Humans with vehicles like skating, trucks, car, bicycle etc are prohibited. The camera will identify the prohibited object as anomaly by training the machine.
