 Phone No :- 8157959080, 9496599080
 Male, 25 Years

SUMMARY

- Passionate to Learn new technologies and its implementations
- Over 3 year 11 month experience as developer in SQL, PL\SQL, Python and ETL tools.
- Experience in Leading 12 - 15 member team across SQL, Python and ETL .
- Experience in Object oriented Design and implementation.
- Data Analysis, pre execute the plan before going to production development, Quality ensuring

ACADEMIC QUALIFICATION

B.A Sociology	2023	IGNUO	61.67
B. Tech. Information Technology	2019	Government Engineering College Idukki	Dropped
Class XII	2015	Kerala State Board of Secondary Education	87.42
Class X	2013	Kerala State Board of Secondary Education	87

INDUSRTY INTERFACE

Medisweans Solutions	Process Associate	Feb 2017-June 2017
Worked on mandated deals		
Worked on Data entry section		
Standout IT Solutions Pvt Ltd	Software Engineer	Feb 2020 - Present
Working on Database design		
Working Dataload and maintainace in Database		
Working in ETL Development for Automation purposes		
Working on Python implementation in Database(Based on requirments)		

PROJECTS UNDERTAKEN

Academic Projects	Hospital Management System and Data Sharing (Mini Project)	Studied the lacking automated hospital managementsystems in Govt. Hospitals Kerala
		Created a Web Using HTML, PHP, CSS and MYSQL
		Prepare a research paper on the basis of project and published in GRD Journals
	Centralized Hospital Management and Secure Data Sharing System for Gov. Hospitals in Kerala (Main Project)	Continuation of Mini Project using python
		Studied how to make it centralized and give more security
Proffessional Projects	CLAIM FILING PORTALS	Claim Filing Portals are web projects for customer involved in class action settlement cases. Each portal will be customized according to customer requirements. The portal helps the users for submitting their claims online to the claim administration company.
		Monitoring the progress and support colleagues during development issues and bug fixes.
	ADMINISTRATION PORTALS	Administration Portals are web projects for clients to handle the data according to their needs. Project includes Login, Database Handling, Creating and modifying procedures, functions, triggers.
		Monitoring the progress and support colleagues during development issues and bug fixes.

Professional Projects	CLAIM FILING PORTAL AUTOMATION	Claim filing portal automation are based on ETL tools like SSIS. This will help to extract the data from database and customisation according to the client. It will happen thorough a button click. They can download the reports from the portal after the extract process complete. The portal itself gives a status of each case extracts too. Monitoring the progress and support colleagues during development issues and bug fixes.
	MANAGE CLIENTS PORTAL	Manage Client Portals are web projects for clients to handle the data according to their needs. Project includes Login, Database Handling, Creating and modifying procedures, functions, triggers. This portal helps store their client details and their informations. Also they can track the data received months and their schedules Monitoring the progress and support colleagues during development issues and bug fixes.
	CLIENT PORTAL	Client portal helps the premium clients to view their cases in Class action, its settlements and their accounts and all. This portal interact with Claims Filing portal and Manage Clients Portal, the premium clients can message their manager for each case and get the status from this portal. Mostly the premium clients can interact with their manager and also view their all details about cases and its status thorough this. This will also include SSIS automation in report generation and Calculation parts and status populating. Monitoring the progress and support colleagues during development issues and bug fixes. Conduct peer-to-peer code reviews.
	Daily Task Tracker	Daily Task Tracker are web projects for in office users to handle the works according to their needs and track their status from start to end. Project includes Login, Database Handling, Creating and modifying procedures, functions, triggers. Monitoring the progress and support colleagues during development issues and bug fixes.

ACHIEVEMENTS

Business Events	Awarded First Prize in Epiphany 16 , the Ideation Boot Camp conducted by E-Cell NIT Trichy
Publications	Published a paper on the topic Centralized Hospital Management and Data Sharing System for Government Hospitals in Kerala at GRD Journals on March 2019. (My article ID is GRDCF013067)
Internships	Completed internship training program in “Android App Development” at IBAND Technologies, Infopark, Kochi from 16/07/2018 to 30/07/2018 (Certificate Link :-) Completed Google Cloud Ready Facilitator, its a cloud training program directed by Google banglore. Explored more in google cloud and done labs in Qwilabs. Also after the training I trained 600+ students across different colleges in Kerala on Google Cloud. (Certificate Link :- https://drive.google.com/file/d/17gl8CxW7dACDDny5aZ6HYxowcJm9zKi3/view?usp=sharing) Completed internship training program in “ETHICAL HACKING AND CYBER SECURITY” at Appin Technology Lab, Kochi from 01/08/2019 to 07/08/2019

Others	Attended the State Level Evaluation of YIP 2019 challenge on 31st December 2019 by Kerala Government and K-DISC , (Ref: Idea ID No: IDEA/2019/341 (HOSPITAL MANAGEMENT SYSTEM))
	Awarded Certification of Participation for the Project presentation at the second round of 8th CSI-InApp National Student Project Award 2019
	Awarded Certification of Participation in Illuminate 2016 on Business Model Workshop the program organized by E-Cell IIT Bombay , as part of EUREKA 16 hosted by GEC Idukki
	Awarded Certification of Participation in the 3rd National Conference on Emerging Research Trends in Engineering (ERTE'19), organized by Department of Electrical and Electronics Engineering at Adi Shankara Institute of Engineering and Technology Kalady
	Awarded Certification of Participation in technical session on FOSS for Industry 4.0 the program conducted by ICFOSS , as part of FYPM 18-19
	Awarded Certification of Participation in IoT Challenge 2016 conducted by i3indya Technologies in association with Techfest 2016 IIT Bombay and IEDC of SCET Kodakara
	Awarded Certification of Attendance in Prograssive Web Apps Workshop by GOOGLE conducted during IEDC Summit 2019 by Kerala Startup Mission

INTERESTS

Participate in tech talk
 Collect more information in new upcoming Technologies, Study new technologies
 Interest in attending tech talks and workshops

TECHNICAL SKILLS

Web Languages	HTML, PHP, PYTHON (Basics)
Platforms	Google Cloud, AWS(Starter)
Data Base \ Integration services	MSSQL, MYSQL, SSIS, Lambda service (Starter)
Source-Code Editor	Visual studio code, Notepad++, Jupyter notebook
