Chennai

2013-2017

ACCOMPLISHMENT

INFOSYS - INSTA AWARD
September 2022

PROFILE

Highly skilled and detail-oriented Automation Testing professional with 5 years of extensive experience in manual and automation testing.

Proficient in utilizing TestNG, Selenium Java, and POM frameworks to ensure efficient and effective software testing.

WORK EXPERIENCE

Technology support specialist

Infosys BPM

June 2021 - Present

- Designed and executed comprehensive test plans, test cases, and test scripts for both manual and automated testing.
- Implemented automation testing using Selenium WebDriver with Java, TestNG, and POM framework to accelerate the testing process and improve efficiency.
- Developed and maintained automated test scripts to validate web applications, ensuring high-quality software delivery and reducing manual effort.
- Conducted functional, regression, and system testing to certify the stability and reliability of software applications.
- Collaborated with software development teams to identify defects, troubleshoot issues, and provide timely solutions, resulting in improved product quality.
- Experienced in reading the test data from excel spreadsheet using TestNG Data provider.
- Interacted closely with developers, environment people, client, team manager, team lead and team members for feature issues and discussion.
- Actively participated in Agile sprints, daily stand-ups, and sprint planning meetings, ensuring alignment between testing efforts and project goals.

Software Test Engineer

Veshcorp Technologies

December 2018 - May 2021

- Created and executed manual test cases to verify the functionality and stability of web applications.
- Conducted system and integration testing to identify defects and ensure compliance with project requirements.
- Collaborated with cross-functional teams to perform root cause analysis of issues and develop corrective actions.
- Contributed to continuous process improvement initiatives by providing valuable insights and feedback for enhancing testing procedures and methodologies.
- Assisted in the development and maintenance of comprehensive test documentation, including test plans, test cases, and test reports.
- Attended project meetings, QA status meetings and daily stand up meeting.
- Basic knowledge in web services testing via Tool POSTMAN.
