

CAREER OBJECTIVE

To secure a challenging position as an Automation QA Test engineer position, which gives me an opportunity to exhibit my technical skills and giving scope for enhancement of my knowledge and career.

EXPERIENCE SUMMARY

- Overall, 4.6 years of experience in **Software Testing** with both **Manual** and **Automation** Testing using **Selenium Web Driver**.
- Good experience in working with **Agile methodology** using scrum.
- Experience on developing a framework using a design pattern - **Page Object Model**.
- Good experience in different framework such as **Junit, TestNG, Data Driven** Framework.
- Previously we developed **BDD** scripts with **Cucumber** and writing step definitions for behavior.
- Sound experience on Object Oriented Programming Structure (**OOPS**) concept.
- Extensively used Java for test case automation.
- Having good experience in **SQL**.
- Proficient in using the build tool **Maven** to manage Java/Selenium automation projects.
- Thoroughly involved in different types of testing like Smoke, Functional Testing, System Integration Testing, Regression Testing.

SKILLS

- Language : Java
- Testing Tools : Selenium Web Driver
- Framework : Cucumber, TestNG, Junit, POM, and Data Driven
- Tools & Utilities : GIT, Maven, Jenkins, Postman, MSSQL
- JIRA : Bug Tracking Tool
- IDE : Eclipse IDE

PROFESSIONAL WORKING EXPERIENCE

- Working at HCL technologies, Bangalore from August 2022 to June 2023. Payroll Company: Sureminds solution Pvt Ltd.
- Worked at 3i Infotech, Chennai from August 2018 to April 2022. Payroll Company : JDK Infotech

PROJECT EXPERIENCE

Project-1 : Workload Automation

Automation Tool : Selenium WebDriver [Eclipse]

Description:

Workload automation refers to the use of software for scheduling, managing, and executing various business tasks and processes with minimum human intervention. It eliminates or significantly reduces the scope of the human error factor, ensuring a smooth continuation of operations with minimal or no disruptions.

ROLE AND RESPONSIBILITIES

- Analysing the user stories, prepare the test scenario based on acceptance criteria.
- Review the Test scenarios, identifying test cases for **Manual** and **Automation** with Selenium **WebDriver**.
- Design and Develop **Automation** scripts in **Selenium WebDriver** using **TestNG**
- Involved in testing the application utilizing the **Scrum (Agile)** methodology.
- Raise and track defect until closure. Re-test the resolved defects.
- Participated in all Agile methodology ceremonies - planning daily scrum calls, sprint review and sprint retrospective.
- Involvement in creating the Test cases, Test scenarios and Test Data.
- Involvement in Test Execution, Result Analyzing and defect reporting.
- Preparation of Test Strategy.
- Setup the Automation Framework using Selenium to run test cases in multiple.
- Sprint Planning, daily scrum calls, Sprint review, and Sprint retrospective.
- Interacting with the client via e-mail / conference call.
- Preparing the Test Summary Report.

Project-2 : SEARS (Ecommerce)

Automation Tool : Selenium WebDriver [Eclipse]

Description:

Sears, Roebuck and Company, American retailer of general merchandise, tools, home appliances, clothing, and automotive parts and services. It is a subsidiary of Sears Holdings Corporation, which, following a bankruptcy auction, was purchased by the hedge fund ESL Investments in 2021.

ROLE AND RESPONSIBILITIES

- Analysing the user stories, prepare the test scenario based on acceptance criteria.
- Review the Test scenarios, identifying test cases for **Manual** and **Automation** with Selenium **WebDriver**.
- Design and Develop **Automation** scripts in **Selenium WebDriver** using **Cucumber** with **Junit Framework**.
- Generating Test Scenarios and test data in feature file.
- Developed the **Automation Test** Scripts in **Selenium WebDriver** using **Java** based on the design.
- Pattern **Page Object Model** for reusability.
- Involved in writing Automation script by using **Selenium WebDriver** with Enhanced Test cases using Java Programming features and **Junit** Annotations.
- Involved in testing the application utilizing the **Scrum (Agile)** methodology.
- Raise and track defect until closure. Re-test the resolved defects.
- Participated in all **Agile methodology** ceremonies - planning daily scrum calls, sprint review and sprint retrospective.

EDUCATIONAL QUALIFICATION

- Bachelor's degree in computer application, Kumararani Meena Muthiah College of Arts & Science, Chennai.

DECLARATION

- I hereby declare that all the above stated information is correct to the best of my knowledge.
