SM WEB SOLUTIONS PVT. LTD.

QA Engineer

Summary:

- Experienced QA professional with having 2 plus years of experience in automation testing, manual testing, and API testing.
- Proven ability to design, develop, and execute test plans, identify and report defects, and collaborate with cross functional teams to deliver high quality software products.
- Adept at using various testing tools and methodologies to ensure the reliability and functionality of applications.
- Functional expertise in Manual/ Automation Testing (Individual Contributor & Selenium Automation Engineer) using Selenium WebDriver, Automation Framework (Data Driven with POM)
- Expertise in Automation Testing Frameworks like TestNG ,Cucumber
- Rich & qualitative experience in Automation of Object Repository & Test Data Management from different Data Sources Excel, XML, with API Apache POI.
- Established and enforced Standard Test Processes and Deliverables (including defect management and quality metric reporting) within the process to streamline testing and support automation & manual testing
- Understanding of Web based Application Automation using Selenium WebDriver with Java, TestNG, Maven Framework Development
- Excellence in gathering and understanding requirements of clients & other multiple stakeholders (at strategic and tactical levels), followed by translation into technical requirements & provisioning of suitable solutions
- Excelled in analysis & review of user, business & system requirements; writing of test cases, defect reporting, system testing, documentation, maintaining and delivering RTM; monitored, documented, & reported current status of defects for each testing cycle & overall project management
- Knowledge of Agile Delivery, Life-Cycle Management Tools (JIRA), Software Testing Standards, Methods and Conventions
- Effective in creating test estimation document, test cases & test plans, executing the same, arriving at the schedules & conducting reviews; managed test plan execution and reported the results
- Seeking opportunities to contribute expertise and drive continuous improvement in testing processes.

Manual

- Created detailed test plans, test cases, and executed manual tests for web applications, identifying critical defects and ensuring high quality software releases.
- Conducted functional, and regression testing consistently meeting project deadlines.
- Collaborated with cross functional teams to reproduce, analyze, and report defects using JIRA, facilitating effective communication between development and QA teams.

- Conducted exploratory testing to uncover usability issues and provide user centric feedback to improve the overall user experience.

API Tester

- Designed and executed APIs Testing using Postman, validating data integrity, error handling, and authentication mechanisms.
- Developed automated API test scripts using Postman collections and reducing testing time by 20%.
- Worked closely with development teams to understand API specifications and ensure accurate testing of endpoints.
- Utilized SQL queries to perform database validations and verify data consistency between APIs and databases.

Skills:

Testing Tools:	Selenium WebDriver, Core Java, TestNG , Cucumber
Programming Languages:	Java
Automation Frameworks:	Hybrid Framework, Page Object Model (POM), Data Driven Testing
Version Control:	Git
Defect Tracking:	JIRA
API Testing:	RESTful APIs, JSON, XML, API Testing using Postman
Testing Methodologies:	Agile, Scrum
Database:	SQL, MySQL
Operating Systems:	Windows, Linux
Test Report:	Extents Report, TestNG Report
IDE:	Eclipse
Operating System:	Windows 7, 10,11

Professional Experience:

Automation Tester SM WebSolutions Pvt. Ltd. | From September 2021 to till now| New Delhi.

- Developed and maintained automation scripts using Selenium WebDriver, Java, and TestNG, resulting in a 30% reduction in regression testing time.
- Implemented the Page Object Model (POM) design pattern to enhance test script maintainability and reusability.
- Collaborated with developers and product managers to define test scenarios and ensure comprehensive test coverage.
- Participated in daily stand up meetings and provided valuable insights to improve the quality of the product.

Projects:

- Project Title: Info Solutions CRM (Web & Mobile App)

Role: Automation Tester .

Client: Africa based Industrial Marketing Company

Environment: Windows 10, Development, Pre-Production, Production

Tools & IDE: Java, Eclipse, Selenium Web Driver

Testing Framework: POM

Project Description:

Info Solution CRM is web & mobile app based Customer Relationship Management software for managing customer relations in a better way. One can use the Info Solution CRM software for client's organization-wide sales, marketing, customer support, and inventory, functions. Info Solution CRM can manage Sales Force Automation (which includes Leads, Accounts, Contacts, Potentials, Sales Forecasts, Quotes, Sales Orders, Invoices and so on), Marketing Automation (Which includes Campaigns, Lead Generation, and Mass Mailing Lists).

Education:

- Graduation BSC from ALLAHABAD in 2021 .
- 12th Completed from UP BOARD in 2018.
- 10th Completed From ICSE in 2015.

PERSONAL DETAILS

- Gender: Male
- Date of Birth: 8th July 1999
- Marital Status: Single
- Nationality: Indian
- Languages Known: English and Hindi
- Address: Sant Ravidas Nagar Bhadohi ,Uttar Pradesh, India. 221401
