**SUMMARY:**

- **OBJECTIVE:** An experienced professional looking to re-enter the workforce to pursue a prospective career in management and contribute to the overall success of the company.
- **HIGHEST QUALIFICATION:** Master of Management (Business Specialisation) at University of Auckland Business School, New Zealand.
- **IT EXPERIENCE:** Software Engineer at Accenture Solutions Pvt Ltd.
- **BACHELOR'S DEGREE:** Electronics & Instrumentation Engineering at Panimalar Engineering College, Chennai.
- **LATEST SKILLS UPGRADED:** The Fundamentals of Digital Marketing on Google Digital Garage, Informatica PowerCenter ETL Course on Udemy.

MASTER'S DEGREE HIGHLIGHTS:**KEY PROJECTS:**

- Strategic analysis of macro-economic and micro-economic impact on New Zealand Premium Foods company using SWOT and PESTEL analysis to market their product in Australia.
- Identification of megatrends in telecommunication industry and analyse how a leading telecommunication company, Spark New Zealand, can adapt to these megatrends.
- Market plan for The Honest Company (United States) to enter the New Zealand market using segmentation, targeting and marketing mix analysis.

FINAL YEAR PROJECT: STRATEGIC ANALYSIS REPORT FOR NEW ZEALAND PREMIUM FOODS COMPANY:

The objective was to formulate a strategic plan for New Zealand Premium Foods to promote their flaky sea salt product in Australia by critically analysing the internal and external factors of the company, opportunities and threats for the company, identify significant problems and implement strategies to overcome the challenges when the company enters the salt market in Australia.

KEY SKILLS GAINED:

- VRIO analysis and business model of the company to understand the values and competitive advantages of the company to operate in a new environment.
- PESTEL analysis to understand the economic and social-cultural factors, and also analyse the threats of entering into a new market.
- Competitor analysis of all salt companies in Australia through position mapping.
- Financial analysis of the company by evaluating the net present value and return of interest to attain the desired market share of 5% in Australia.

INTERNSHIP: MARKETING MANAGER IN MIKES BIKES – BUSINESS SIMULATION GAME AT UNIVERSITY OF AUCKLAND

Mikes Bikes is an online business simulation game in which students are assigned into different teams to compete with each other. The teams consist of 5 students which includes the CEO, CFO, Operations Manager, R&D Manager and Marketing Manager. The team which gets the highest market share will be the winner of the simulation. With the marketing manager role, I was able to gain more marketing skills related to branding, advertising and promotion activities.

KEY SKILLS GAINED:

- We learnt how to design, manufacture and market bicycles to compete with other student-run companies in a virtual, real-time world.
- We analysed our corporate position and developed strategies, distribution networks and ongoing responses within a highly competitive business environment.
- We learnt about inter-disciplinary cooperation and coordination within teams, as no company can succeed without the contribution of each functional area of the business.

WORK EXPERIENCE:

APPLICATION DEVELOPMENT ASSOCIATE AT ACCENTURE SOLUTIONS PVT LTD, CHENNAI

- Data migration program developer with total of 1.5 years of experience in ETL tool (Informatica Power Center) and Oracle SQL developer involving data migration activities like mapping development, data validation, data transformation and data loading.
- Have supported two projects, ALSTORM (A French Multinational Railway Company) for a period of 6 months along with SANOFI (A French Multinational Healthcare Company) for a period of 5 months.
- A good experience in developing mappings for Extraction, Transformation and Loading (ETL) mechanism using Informatica for major objects like Master data (Material Master), Production-Planning (BOM, Production, Version, Quota) and loaded them in SAP using LSMW.
- Good project management skills with the ability to co-ordinate manage and ensure proper delivery / implementation of applications developed.
- Identifying and completing activities, which assist in efficiently delivering high quality on-time solutions to clients / key users.
- Creating progress reports and provide completed day-to-day job task reports to the clients to ensure smooth delivery of products.

EDUCATION:

- **MASTER'S DEGREE:** Master of Management (Business Specialisation) from The University of Auckland, New Zealand graduated in the year of 2021.
- **BACHELOR'S DEGREE:** Electronics & Instrumentation Engineering from Panimalar Engineering College, Chennai graduated in the year of 2016.
