DOB: 03/03/1993

## SENIOR SOFTWARE ENGINEER

*Strong Technical skills gained from various Industrial automation projects to run seamless operations through the production software*

Specialization in Design, Implementation and installation of Automation Systems, MES Systems for Manufacturing, Automotive and Tire industries.

- Authorized System Integrator of Siemens Automation
- Installation & Configuration partner for all Siemens controllers and Drives.
- Authorized System Integrator of Mitsubishi Automation.
- MES Solution Provider for Simatic IT.
- Detailed technical documentation (functional design specifications, FAT/SAT procedures and operations & maintenance manual).
- Commissioning and AMC integrators for Industrial clients.

## PROFESSIONAL EXPERIENCE

### *Senior Software Engineer*

*Dalisoft Technologies Private Limited, Chennai*

*May 2019 – Present*

## PROFESSIONAL RESPONSIBILITIES:

- An analytical Senior software developer with expertise in .NET with OPC/DDE technologies.
- Versed in both agile and waterfall development techniques.
- Skilled in requirements analysis and project documentation.
- Able to communicate effectively with both technical and non-technical project stakeholders.
- Expertise in current and emerging trends and techniques.
- Proficient in coding and developing the new program.
- Provide full lifecycle support to clients from initial client interaction and requirements analysis through design, coding, testing, debugging, implementation and integration.
- Provide on-going application support and troubleshooting.
- Establish, build and manage relationships with corporate partners.
- Used object-oriented principles for class development to streamline efficiency and ensure a scalable and reusable architecture.
- Written documentation for new and legacy applications.

Client: ○ M/s.Force Motors Rolls-Royce, PUNE.

Project Title: MES with SimaticIT 3.2

*Project details:*

MES for entire plant with track and traceability system, With ERP integration.

**Role:**

- Project schedule preparation and follow.
- Preparation & submission of Software Requirement Specification and High-Level Design Documents.
- Preparation and submission of Functional Design Specification.
- Preparation and submission of SOP and Flow chart.
- Entire Project Development by using mentioned technologies.
- Erection organizing and Commissioning, System trial, training and handover the system.
- Integration with ERP system using .XML.

**Software/Technologies Used:**

VB.Net, C##, Bartender, UADM 3.1,3.0, Angular JS, FileZilla, ASP.Net, Web-Services, SFTP.

---

**Software Engineer**

*Base Automation Technologies Private Limited, Chennai    Mar 2016 to April 2019*

|                      |                                                                     |
|----------------------|---------------------------------------------------------------------|
| <b>Client:</b>       | <b>M/s. APOLLO Tire India Ltd, Chennai.</b>                         |
| <b>Project Title</b> | <b>Recipe Management System for Rubber Compounding Machineries.</b> |

**Project details:**

Rubber compound mixing with GRN based track and traceability system.

**Role:**

- Project schedule preparation and follow.
- Preparation & submission of Software Requirement Specification and High-Level Design Documents.
- Preparation and submission of Functional Design Specification.
- Preparation and submission of SOP and Flow chart.
- Entire Project Development by using mentioned technologies.
- Erection organizing and Commissioning, System trial, training and handover the system.

**Software/Technologies Used:**

VB.Net, RS LINX 3.58, Windows CE 7.0 with .Net Framework 3.5.

|                      |                                                                                                    |
|----------------------|----------------------------------------------------------------------------------------------------|
| <b>Client:</b>       | <b>M/s. CEAT Limited, Halol, Gujarat.</b>                                                          |
| <b>Project Title</b> | <b>Plant Wide MIS with Barcode Based Tire Genealogy Tracking System for Radial Plant Expansion</b> |

**Project details:**

Barcode based Tire Genealogy tracking from Raw material store to Final Good Station.

**Role:**

- Preparation & submission of Software Requirement Specification and High-Level Design Documents.
- Preparation and submission of Functional Design Specification.
- Preparation and submission of SOP and Flow chart.

- Entire Project Development by using mentioned technologies.
- Erection organizing and Commissioning, System trial, training and handover the system.
- Coordinate with Plant Engineering team for Integrate all plant machine PLC to MIS Server
- Project development and Testing.
- Coordinate with Plant Production team for Production Validation.
- System trial, Training and Handover the system.

**Hardware:**

Motorola MC3200, Zebra ZET 230T, COGNEX DM 256, DS 3578 & SIMATIC ITC 1200.

**Software Technologies:**

VB.Net, C#.Net, WCF, ASPX, HTML, AJAX, KepwareEX 5.18, FTTM 10.20, Window CE 7.0 with .Net Framework 3.5, Dev-Express, ASP.Net, SQL Server 2012, Oracle 11G Connectivity by ODP & HANA Connectivity by using SAP Connector 3.0.

---

**Java Developer**

*Scigenome Labs Pvt Ltd,, Chennai*

*Nov 2014 to Oct 2015*

|                      |                        |
|----------------------|------------------------|
| <b>Client:</b>       | <b>Genentech</b>       |
| <b>Project Title</b> | <b>Scigenome LIMS.</b> |

Laboratory Information Management System.

**Role:**

- Collect SRS from client.
- Co-ordinate with developers about specifications.
- Get the final codes from Developers.
- Test the application.
- If BUG is found, raise a ticket to developer.
- Perform regression, black box, white box, database testing.
- Approval upon issue resolution.

**Software/Technologies:**

Environment: Java

Testing Tools: Manual Testing, Database Testing

---

**College Project**

*July 2013 to May 2014*

**Project details:**

- Project: Centralized and Distributed Protocol for Tracker Based Dynamic Swam Management
- Environment: Java
- Testing Tools: Manual Testing

Description: This project was developed to transmit all types of audio, video and image format from one computer to another computer rapidly using networking concepts and swarms

---

## EDUCATION

- **B.E (Computer Science Engineering), 2014 - Saveetha Engineering College, Chennai, Tamilnadu**

## TECHNICAL SKILLS
