Projects

Worked on Angular 7 and later migrated to Angular 8. Handled the entire UI side development as the sole UI resource. Used ngx-bootstrap and material design with Angular 8 for data display and management. Implemented the LazyLoading concept to improve application performance. Provided support for 14 languages using ngx-translate. Ensured code quality through adherence to standards and bug fixes using karma and jasmine. Conducted cross-browser and cross-platform compatibility testing, code optimization, and unit testing. Explored and implemented innovative ideas.

Worked on Angular 7 and Node JS. Handled the entire UI side development as the sole UI resource. Created wireframes, designed the file structure, and maintained files. Used ngx-bootstrap and material design with Angular 8 for data display and management. Developed RESTful web services using Node JS and Express JS. Created reusable components and directives. Implemented the LazyLoading concept to improve application performance. Provided support for 14 languages using ngx-translate. Ensured code quality through adherence to standards and bug fixes using karma and jasmine. Conducted cross-browser and cross-platform compatibility testing, code optimization, and unit testing. Explored and implemented innovative ideas.

Worked as a UI developer to build a new web application. Started with Angular 2 and later migrated to Angular 6. Used ngx-bootstrap and material design with Angular 6 for data display and management. Created RESTful web services using Node JS and Express JS. Created reusable components and directives. Implemented the LazyLoading concept to improve application performance. Ensured code quality through adherence to standards and bug fixes using karma and jasmine. Conducted cross-browser and cross-platform compatibility testing, code optimization, and unit testing. Explored and implemented innovative ideas.

Education

Degree	College	Year
MCA	Madras University at Chennai	
BCA	Sree Ragavendra Arts & Science Collage Chidambaram
